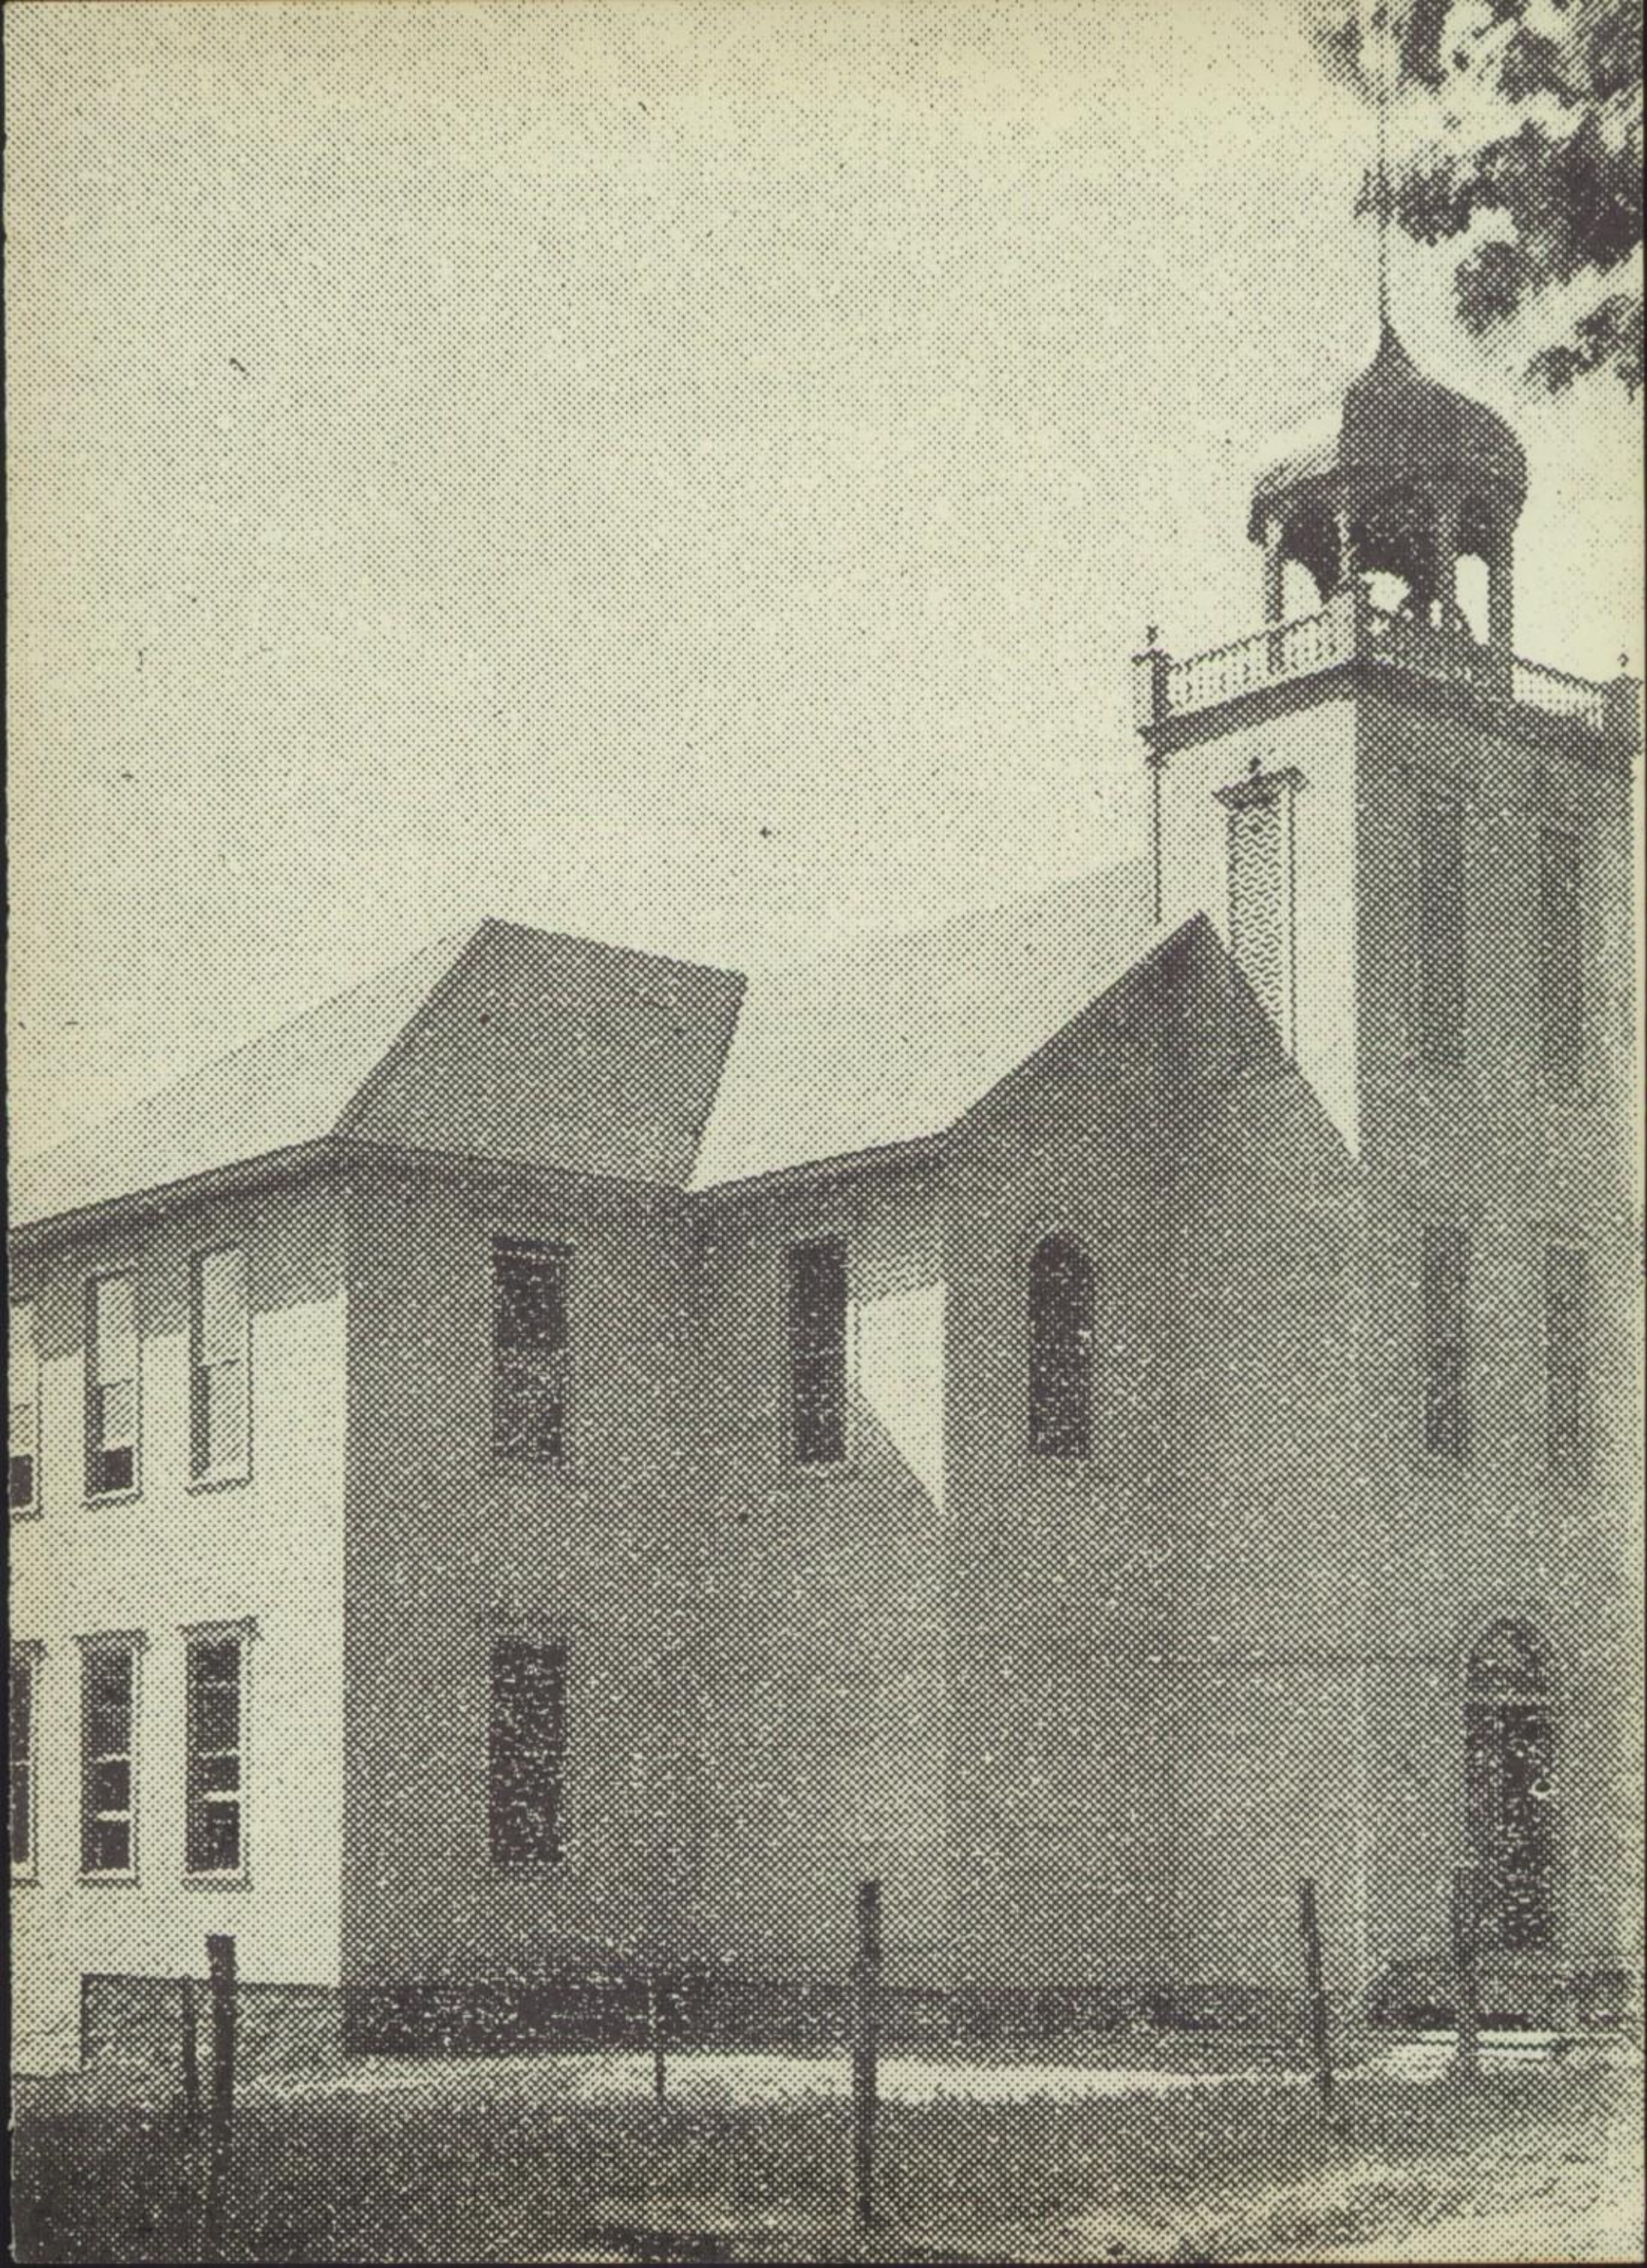
MIRAGE



It is not our intention to have what is known as a theme for our yearbook. However, we will refer occasionally to the Salix Academy which was established in 1907 by the Salix Academy Association. From there, it became the Salix High School; then some years later, the Adams Township High School. In 1922, they moved into the present building in Sidman. It was not until 30 years later that the name was changed to Adams-Summerhill Joint. The class of '58 is honored to be the 50th graduating class.

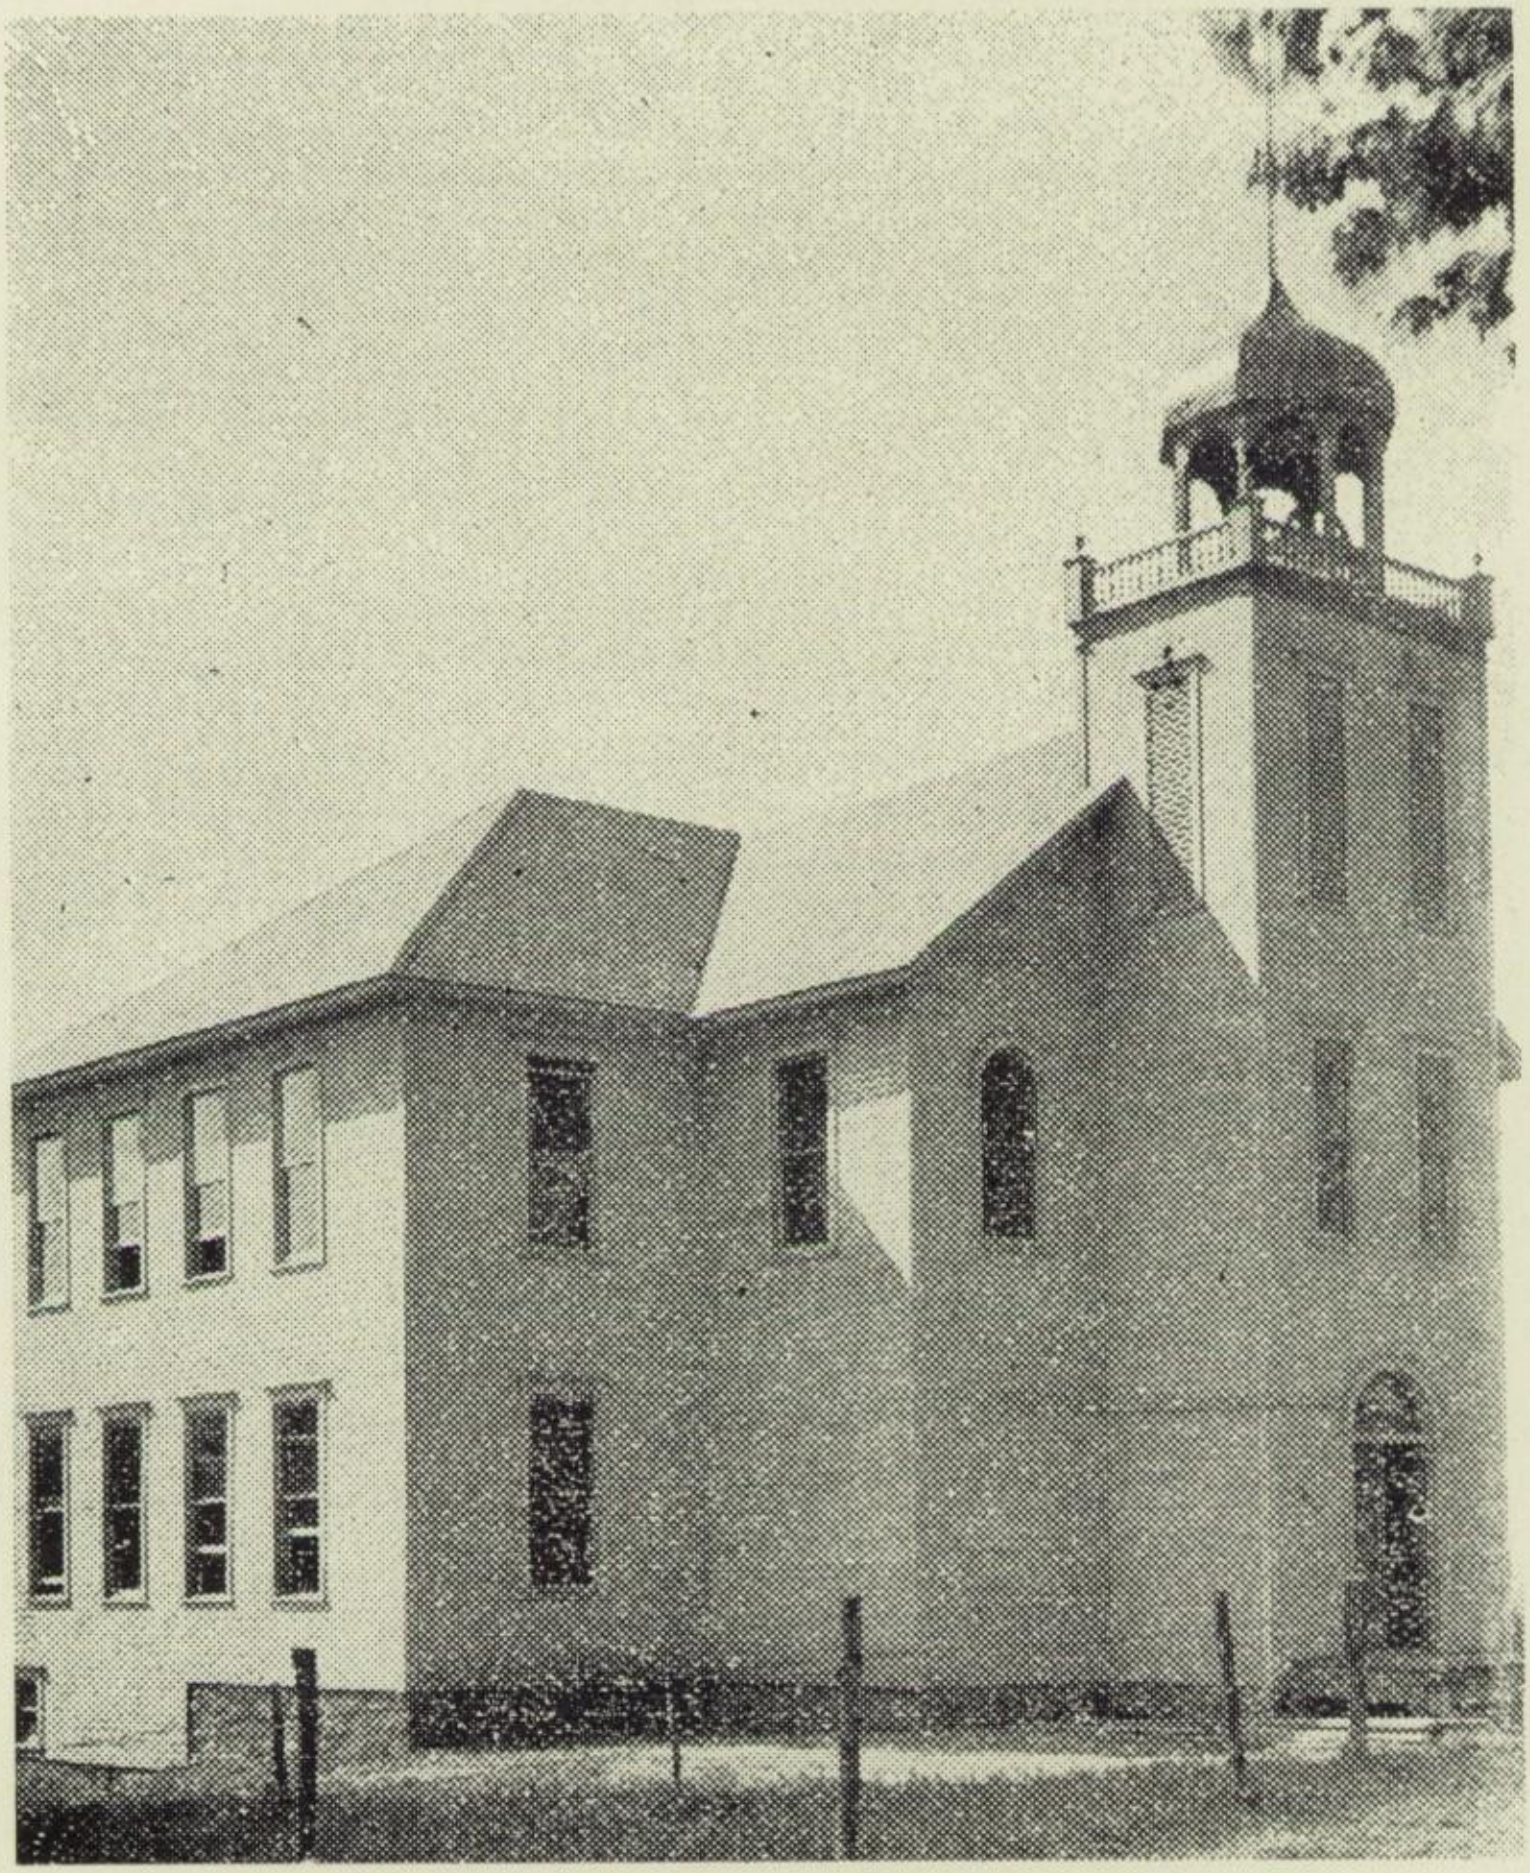
THE FIRST SALIX ACADEMY



Early in 1904, the citizens of Salix organized the Salix Academy Association. The president of the association, Dr. F. J. Livingston, called a meeting of the members to promote the educational and popular culture of the community. During the meeting, it was proposed that they construct a building at the north end of the village of Salix.

In 1905, the building was begun and it was completed a year later. It contained four well ventilated recitation rooms, each of which were modernly equipped with school furniture. There was also a library containing 250 volumes.

The second story of the building contained an auditorium with a seating capacity of 600.

Adjoining the building was an athletic field, 2 1/2 acres large.

The high school had a three year course. It was not until 1921 that it was changed to a four year course.

One of the main features of the senior trip is a visit to a fabulous night spot. Here Phyllis Beam is depicted chatting with Don Cornell, a famous singer, after the show. In addition, all of the historical and well-known scenes are visited during the three day trip to Washington.

In the same manner as the new students enrolled in the Salix Academy in 1907, our Freshman Class entered the halls of Adams-Summerhill Joint School 50 years later. The students of the Academy came from various sections of Cambria County; this year's neophytes hail from Dunlo, Salix, St. Michael, Elton, Eureka #42, Ragers, Gramlington, and Palestine. We hope that their aspirations, hopes and goals will be realized, and that they will contribute to society as did their centennial ancestors.
